Enhanced Cash Portfolio

As at 31 March 2024

Current Rate (%p.a.)

4.65%¹

Investment Objective and Strategy

The Enhanced Cash Portfolio invests entirely in income assets. It is suited to investors looking for an on-call investment with a low level of risk and are willing to accept a relatively modest level of returns.

Why invest in the Enhanced Cash Portfolio?

Low Minimums - \$1,000 minimum holding and \$100 regular saving or withdrawal amount.

Diversification - risks are kept low by diversifying across a range of New Zealand banks.

Ready Access - your money is available 'on-call'.

Regular Income - monthly distributions are automatically reinvested but a regular withdrawal facility is available to meet your income needs.

Tax Effective - as a PIE, 30%, 33% or 39% taxpayers are capped at a 28% prescribed investor rate (PIR) by using the Portfolio. The Portfolio is tax efficient for exempt investors and those requiring gross investments such as charities.

Use of Money - PIE tax is not payable until each year end or on full withdrawal. This is a benefit compared with non-PIE investments, which typically deduct and pay withholding tax each month.

Risk Indicator

The Risk Indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets go up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way. See the Product Disclosure Statement for more information about the risks associated with investing, and how the risk indicator is calculated.
