What are the risks of investing?

Risk indicator for the **Moderate Fund**¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets go up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on returns data for the five years to 30 June 2020. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Notes

1 The Moderate Fund was previously known as the Conservative Fund. The Fund was re-named as at 24 March 2020.

2 Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). GST is not included in any of the fees stated and will be added where required.

3 Other management and administration charges may include a performance-based fee charged by Magellan Finance Group in respect of the performance in the Magellan Global Fund.

4 Other management and administration charges includes the fund's proportionate share of the property operating expenses incurred as a result of investing into the Booster Investment Scheme 2 Private Land and Property Fund, a fund also managed by Booster Investment Management Limited (the 'Property Fund'). These are the direct costs of ownership and operating the individual properties of the Property Fund. This includes but not limited to, rates, insurance, crop growing costs, repairs and maintenance, valuations, depreciation, other property related costs and associated professional fees. The property operating costs for the year ending 31 March 2021 may be materially different to the costs incurred in the year ended 31 March 2020.

5 The Fund may invest a portion of its net asset value in Booster Tahi LP, a limited partnership managed and established by related parties to Booster Investment Management Limited. Booster Tahi LP pays performance fees to the fund manager, Booster Funds Management Limited. By investing in Booster Tahi LP, the Fund will bear a proportionate share of any performance fee charged which will be reflected in the unit price of the Fund.

6 Because the manager of Booster Tahi LP is a related party to Booster Investment Scheme, and it may receive a performance fee based on the returns of the Booster Tahi LP; 0.50% of Booster Investment Management Limited's annual management fee will be rebated on the amount invested by the Fund in Booster Tahi LP.

7 A performance-based fee was charged for the year ended 31 March 2020, however the Fund's proportionate share of the fee equated to less than 0.01% of the Fund's net asset value. The performance fee will vary based on the performance of the Booster Tahi LP and this charge for the year ending 31 March 2021 may be materially different to the fee charged from the year ended 31 March 2020.

8 For more information on the performance-based fee, refer to the Fund's PDS and to the "Estimate of Fee" document lodged on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information on the performance-based fee.
