

## Fund Update

### For the quarter ended 30 June 2022

This fund update was first made publicly available on 28 July 2022

### What is the purpose of this update?

This document tells you how the **Income 99 Fund** has performed and what fees were charged. The document will help you to compare the fund with other funds. **Booster Investment Management Limited** prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Income 99 Fund invests predominantly in high dividend paying growth assets, with a small allocation to income assets. It is suited to investors who are comfortable with a high level of risk in order to potentially achieve higher returns.

<b>Total value of the Fund</b>	\$5,417,088
<b>The date the fund started</b>	19 September 2016

### What are the risks of investing?

Risk indicator for the **Income 99 Fund**:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets go up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on returns data for the five years to 30 June 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Average over the past 5 years	Past Year
<b>Annual return</b> (after deductions for charges and tax)	5.14%	-9.66%
<b>Annual return</b> (after deductions for charges but before tax)	6.50%	-8.57%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	9.26%	-8.53%

The market index return is based on the weighted average return of the market indices used in respect of the underlying asset classes as described in the Statement of Investment Policy and Objectives.

More information about the market index can be found in the 'Further information on market index' section of the offer register at <https://disclose-register.companiesoffice.govt.nz/>

## Annual return graph

This shows the return after fund charges and tax for each year ended 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2022. Please note that the market index returns do not include deductions for charges and tax.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in the Income 99 Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of Net Asset Value
<b>Total fund charges<sup>1</sup></b>	<b>1.04%</b>
Which are made up of:	
<b>Total management and administration charges</b>	<b>1.04%</b>
Including:	
Manager's basic fee	1.00%
Other management and administration charges	0.04%
<b>Total Performance-based fees</b>	<b>0.00%</b>
<b>Other charges</b>	<b>Dollar amount per investor</b>
Member Fee	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Booster Investment Scheme: Investment Series: Income Funds and Corporate Bond Fund PDS for more information about those fees.

See the product disclosure statement for more information about the basis on which performance fees are charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Ruby had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ruby received a loss after fund charges and tax were deducted of -\$966 (that's -9.66% of her initial \$10,000). Ruby also paid \$0.00 in other charges. This gives Ruby a total loss after tax of -\$966 for the year.

## Notes

- 1 Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). GST is not included in any of the fees stated and will be added where required.
- 2 The investment strategy for Australasian Equities includes a holding of listed property securities. This holding has been categorised as "Listed Property" in the "Actual Investment Mix" but are considered equity securities within the fund's investment strategy.
- 3 This key personnel has not been named in previous fund updates and has been added due to a change in role.
