

Booster KiwiSaver Scheme Default Saver Fund

As at 31 May 2024

RIAA Certification and Booster's Responsible Investing Policy

This fund has been certified by the RIAA according to the strict operational and disclosure practices required under the Responsible Investment Certification Program. See www.responsiblereturns.com.au for details.¹

CERTIFIED BY RIAA

See our Approach to Responsible Investing Policy document for further details on excluded investments, how we integrate environmental, social and governance factors into our investment selections, and the types of positive engagement activities we aim to undertake. See www.booster.co.nz/responsible-investing-policy for details.

Investment Objective and Strategy

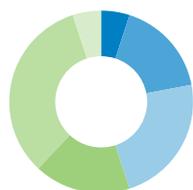

The Default Saver Fund is suited to investors who seek a medium level of returns on average over medium term periods (five years plus), allowing for shorter term ups and downs. We aim to achieve this by investing in a mix of income and growth assets, utilising a predominantly passive investment approach.

Risk Indicator

The Risk Indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets go up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way. See the Product Disclosure Statement for more information about the risks associated with investing, and how the risk indicator is calculated.

Benchmark Asset Allocation

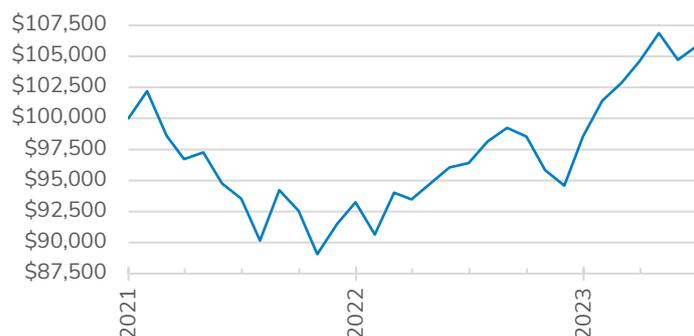

5%	Cash and cash equivalents
17%	New Zealand fixed interest
23%	International fixed interest
17%	Australasian equities
33%	International equities
5%	Listed Property

Growth Assets **55%** Income Assets **45%**

Historical Returns²

Performance as at 31-May-2024²

	Before Tax	After Tax at 28%
Last month	1.3%	1.1%
Last 3 months	1.4%	1.2%
Last 6 months	8.1%	7.4%
Last 12 months	11.1%	9.8%
Last 2 years (p.a.)	7.2%	6.4%
Since Inception (01/12/2021) (p.a.)	2.6%	2.3%

All figures are after fees. Please see the Product Disclosure Statement for further details.

Fund Characteristics³

The range of expected returns for the fund is shown below. This shows how returns on the fund are likely to vary more in the short term, but converge in a narrower range over the longer term.

	PIR			
	0%	10.5%	17.5%	28%
Expected Long Term Return Forecast (p.a. after fees)	7.2%	6.7%	6.3%	5.8%
Range of expected returns in any one year (p.a. after fees)	-8% to 24%	-8% to 23%	-9% to 23%	-9% to 22%
Range of expected returns in any ten years (p.a. after fees)	2% to 12%	1% to 12%	1% to 11%	0% to 11%

¹ The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold a Financial Advice Provider licence.

² Past performance is not an indicator of future performance.

³ Expected returns are calculated based on long-run expectations for investment markets and fund performance, and are not a guarantee of future results. The calculation takes information on how market returns have varied in the past and gives a range of what is assessed to be likely in the future. The ranges of expected returns have been calculated using a statistical tool of 2 ½ standard deviations of return volatility – this means that actual returns are expected to fall outside these ranges 1 year out of every 100. While these ranges may be used as a guide, due to the uncertainty inherent in financial markets they are also not guaranteed.
