

Booster KiwiSaver Scheme

Socially Responsible Geared Growth Fund

As at 30 June 2024

About Booster's Socially Responsible Investment Funds

Booster offers a range of socially responsible funds, which exclude investments that do not satisfy certain socially responsible criteria and allow Kiwis to reflect their values in their investment choices.

In addition to considering environmental, social and governance criteria in our assessment of investments, these funds also exclude investments in directly held companies and managed fund investments where the underlying activities are principally involved in the **tobacco, alcohol, gambling, armaments, nuclear power, pornography and fossil fuel** industries. These funds also exclude investments in directly held companies where the underlying activities are principally involved in **animal testing on non-medical products, factory farming, genetically modifying organisms, livestock exports, whaling, recreational cannabis and palm oil production**.

Our Approach to Responsible Investing policy (booster.co.nz/responsible-investing-policy) is a great place to learn more about what we do. It includes more detail on excluded investments in the section titled "Socially responsible investing".

CERTIFIED BY RIAA

This fund has been certified by the RIAA according to the strict operational and disclosure practices required under the Responsible Investment Certification Program. See www.responsiblereturns.com.au for details.¹

Investment Objective and Strategy

The Socially Responsible Geared Growth Fund is suited to investors who seek higher returns, including increased potential returns via leverage, on average over extended periods (fifteen years plus), allowing for more significant short to medium term ups and downs, whilst excluding investments which do not satisfy certain socially responsible investment criteria. We aim to achieve this by investing predominantly in growth assets, with little or no allocation to income assets, and the use of leverage to provide increased exposure, and the application of our Responsible Investment Policy.

Target Gearing Ratio

35%

Benchmark Asset Allocation

Growth Assets **99%** Income Assets **1%**

- 1% Cash and cash equivalents
- 29% Australasian equities
- 60% International equities
- 4% Listed Property
- 6% Unlisted property

Risk Indicator

The Risk Indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets go up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way. See the Product Disclosure Statement for more information about the risks associated with investing, and how the risk indicator is calculated.

Key Facts

Suggested Investment Timeframe	15 years +

About the Socially Responsible Geared Growth Fund

The Socially Responsible (SR) Geared Growth Fund is designed to enable long-term savers to gain the benefits of a leveraged (or geared) exposure to growth assets (e.g. shares) through borrowing. Gearing simply means borrowing money to invest. The SR Geared Growth Fund increases the effective size of your invested funds by purchasing additional investments with borrowed funds. This magnifies the returns for the investor, both up and down.

This is best illustrated through a hypothetical example. Using the SR Geared Growth Fund's target gearing ratio of 35% and if the underlying investments were to increase by 10%, an investor in the SR Geared Growth Fund would receive a 13.5% return. While if the underlying investments were to fall by 10%, the balance of an investor in the SR Geared Growth would fall by 13.5%.

Note: This scenario is an illustration only and is calculated before fees. It assumes income returns offset the interest costs associated with borrowing funds to invest, on an after tax basis.

¹ The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold a Financial Advice Provider licence.

All figures are after fees. Please see the Product Disclosure Statement for further details.

Fund Characteristics³

The range of expected returns for the fund is shown below. This shows how returns on the fund are likely to vary more in the short term, but converge in a narrower range over the longer term.

	PIR			
	0%	10.5%	17.5%	28%
Expected Long Term Return Forecast (p.a. after fees)	9.8%	9.3%	9.0%	8.6%
Range of expected returns in any one year (p.a. after fees)	-24% to 54%	-24% to 54%	-24% to 53%	-25% to 53%
Range of expected returns in any ten years (p.a. after fees)	-3% to 21%	-4% to 21%	-4% to 21%	-4% to 20%

² Past performance is not an indicator of future performance.

³ Expected returns are calculated based on long-run expectations for investment markets and fund performance, and are not a guarantee of future results. The calculation takes information on how market returns have varied in the past and gives a range of what is assessed to be likely in the future. The ranges of expected returns have been calculated using a statistical tool of 2 ½ standard deviations of return volatility – this means that actual returns are expected to fall outside these ranges 1 year out of every 100. While these ranges may be used as a guide, due to the uncertainty inherent in financial markets they are also not guaranteed.

Booster Global Active SR Share Managers

As at 30 June 2024

Booster Global Active Shares (with advice from Rothschild)

This is a tailored portfolio of around 20 global businesses that has been selected by Booster in conjunction with research and advice from Rothschild Bank. Their focus is on owning businesses with a durable franchise, strong core competencies, a capable management team, a strong financial position and one that is priced at a reasonable valuation. From time-to-time additional securities may be held alongside these businesses to manage portfolio and market risks.

Booster Investment Scheme

DNR Capital Australian Equities SR Strategy

As at 30 June 2024

About the Strategy

The Australian Equities Socially Responsible Strategy is an actively managed strategy that offers investors exposure to a concentrated portfolio of large and mid-sized Australian companies. The strategy targets high-quality companies which DNR consider to be those with earnings strength, superior industry positions, sound balance sheets, strong management and low ESG risk. The strategy excludes investments in companies where the underlying activities are principally involved in the tobacco, gambling, armaments, nuclear power, and fossil fuel industries, among others. For further details on excluded investments, see our Approach to Responsible Investing policy at <https://www.booster.co.nz/responsibleinvesting-policy>.
