

Booster KiwiSaver Scheme

High Growth Fund

As at 29 February 2024

Investment Objective and Strategy

The High Growth Fund is suited to investors who seek potentially higher returns on average over long term periods (ten years plus), allowing for short to medium term ups and downs. We aim to achieve this by investing predominantly in growth assets, with little or no allocation to income assets.

Risk Indicator

The Risk Indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets go up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way. See the Product Disclosure Statement for more information about the risks associated with investing, and how the risk indicator is calculated.

Fund Characteristics²

The range of expected returns for the fund is shown below. This shows how returns on the fund are likely to vary more in the short term, but converge in a narrower range over the longer term.

	PIR			
	0%	10.5%	17.5%	28%
Expected Long Term Return Forecast (p.a. after fees)	8.5%	8.0%	7.7%	7.3%

Range of expected returns in any ten years (p.a. after fees)	-1% to 17%	-1% to 16%	-2% to 16%	-2% to 16%

¹ Returns at 28% PIR quoted are after tax of 33% up to 31/3/08, 30% from 1/4/08 to 30/09/10, and 28% from 1/10/10, and after fees. Past performance is not an indicator of future performance.

² Expected returns are calculated based on long-run expectations for investment markets and fund performance, and are not a guarantee of future results. The calculation takes information on how market returns have varied in the past and gives a range of what is assessed to be likely in the future. The ranges of expected returns have been calculated using a statistical tool of 2 ½ standard deviations of return volatility – this means that actual returns are expected to fall outside these ranges 1 year out of every 100. While these ranges may be used as a guide, due to the uncertainty inherent in financial markets they are also not guaranteed.
