

Fund Update

For the quarter ended 31 December 2022

This fund update was first made publicly available on 13 February 2023

What is the purpose of this update?

This document tells you how the **Default Saver Fund** has performed and what fees were charged. The document will help you to compare the fund with other funds. **Booster Investment Management Limited** prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Default Saver Fund invests in a balanced mix of income assets and growth assets. It is suited to investors looking for a medium level of risk and are willing to accept a medium level of returns.

Total value of the Fund	\$395,971,320
Number of Investors in the fund	51,398
The date the fund started	1 December 2021

What are the risks of investing?

Risk indicator for the **Default Saver Fund**¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets go up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on returns data for the five years to 31 December 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past Year
Annual return (after deductions for charges and tax)	-11.31%
Annual return (after deductions for charges but before tax)	-12.09%
Market index annual return (reflects no deduction for charges and tax)	-11.25%

The market index return is based on the weighted average return of the market indices used in respect of the underlying asset classes as described in the Statement of Investment Policy and Objectives.

More information about the market index can be found in the 'Further information on market index' section of the offer register at <https://disclose-register.companiesoffice.govt.nz/>

What fees are investors charged?

Investors in the Default Saver Fund are charged fund charges. In the year to 18 March 2022² these were:

	% of Net Asset Value
Total fund charges³	0.35%
Which are made up of:	
Total management and administration charges	0.35%
Including:	
Manager's basic fee ⁴	0.35%
Other management and administration charges	0.00%
Total Performance-based fees	0.00%

Other charges	Dollar amount per investor
Member Fee ⁵	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Booster KiwiSaver Scheme: Default Saver Fund PDS for more information about those fees.

See the product disclosure statement for more information about the basis on which performance fees are charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Ruby had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ruby received a loss after fund charges and tax were deducted of -\$1,131 (that's -11.31% of her initial \$10,000). Ruby also paid \$0.00 in other charges. This gives Ruby a total loss after tax of -\$1,131 for the year.⁶

Further Information

You can also obtain this information, the PDS for the **Booster KiwiSaver Scheme: Default Saver Fund**, and some additional information from the offer register at <https://disclose-register.companiesoffice.govt.nz/>

Notes

1 Because the fund has been operating for less than 5 years, the risk indicator has been calculated using market index returns for the period 1 January 2018 to 31 December 2021 and actual returns for the period of 1 January 2022 to 31 December 2022. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2 The fund has not yet completed a full disclosure year and the total fund charges shown are the amount of costs and expenses that will be charged to the fund as at the date of the Booster KiwiSaver Scheme - Default Saver Fund PDS. The fund's first full disclosure year is the year ending 31 March 2023.

3 Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). GST is not included in any of the fees stated and will be added where required.

4 The management fee covers Booster's administration and investment management fees, the Supervisor's fee and the regular costs and expenses of running the Scheme (such as audit fees and legal fees).

5 The Default Saver Fund does not charge a member fee if you've had all your money invested in the Default Saver Fund since you joined, and you have not switched from the Default Saver Fund to another fund/s.

6 Ruby was allocated by default to the fund and has not switched out of the fund so no member fee is charged to Ruby. If Ruby switches out of the fund and back into the fund, Ruby would be charged a membership fee of \$3.00 per month if her balance is greater than \$500.
