## Notes

1 Because the fund has been operating for less than 5 years, the risk indicator has been calculated using market index returns for the period 1 July 2017 to 31 March 2022 and actual returns for the period of 1 April 2022 to 30 June 2022. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2 The fund has not yet completed a full disclosure year and the total fund charges shown are the amount of costs and expenses that will be charged to the fund as at the date of the Booster KiwiSaver Scheme - Socially Responsible Investment Funds PDS. The fund's first full disclosure year is the year ending 31 March 2023.

3 Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). GST is not included in any of the fees stated and will be added where required.

4 The management fee covers Booster's administration and investment management fees, the Supervisor's fee and the regular costs and expenses of running the Scheme (such as audit fees and legal fees).

5 The gearing fee included in the "Managers Basic Fee" will vary depending on the level of borrowing used to gear the fund for the upcoming year. This expense may be materially different to estimates.

6 The Fund may invest a portion of its net asset value in Booster Innovation Fund, which is managed and established by Booster Investment Management Limited. Booster Innovation Fund pays a performance fee to Booster Investment Management Limited. By investing in Booster Innovation Fund, the Fund will bear a proportionate share of any performance fee charged which will be reflected in the unit price of the Fund.

7 The fund pays interest on the amount of money borrowed by the fund in order to leverage up its total exposure to equities. The interest costs incurred by the fund will vary depending on the level of borrowing used to gear the fund.

8 As the fund does not have a full year of performance data, the returns used are based on the period 31 March 2022 to 30 June 2022. For the purposes of the member example the period refers to 31 March 2022 to 30 June 2022 and the return is the actual returns since the fund started, net of annual fund charges and tax. The \$3 member fee is a monthly charge.

9 This key personnel has not been named in previous fund updates and has been added due to a change in role.
