Fund Update

For the quarter ended 30 September 2026

This fund update was first made publicly available on 29 October 2026

What is the purpose of this update?

This document tells you how the **Growth Portfolio** has performed and what fees were charged. The document will help you to compare the fund with other funds. **Booster Investment Management Limited** prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Growth Portfolio is part of the Workplace Savings Section. The fund is suited to investors who seek potentially relatively high returns on average over longer term periods (seven years plus), allowing for short to medium term ups and downs. We aim to achieve this by investing primarily in growth assets, with a moderate allocation of income assets.

Total value of the Fund	$128,558
Number of Investors in the fund	17
The date the fund started	21 December 2021

What are the risks of investing?

Risk indicator for the **Growth Portfolio**[1]**:**

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets go up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at https://www.sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on returns data for the five years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past Year
Annual return (after deductions for charges and tax)	7.46%
Annual return (after deductions for charges but before tax)	8.20%
Market index annual return (reflects no deduction for charges and tax)	8.59%

The market index return is based on the weighted average return of the market indices used in respect of the underlying asset classes as described in the Statement of Investment Policy and Objectives.

More information about the market index is available on the Disclose offer register at https://disclose-register.companiesoffice.govt.nz/

Annual return graph

This shows the return after fund charges and tax for each year ended 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2026. Please note that the market index returns do not include deductions for charges and tax.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Growth Portfolio are charged fund charges. In the year to 31 March 2026 these were:

	% of Net Asset Value
Total fund charges[2]	**1.25%**
Which are made up of:	
Total management and administration charges	**1.25%**
Including:	
Manager's basic fee[3 4]	1.22%
Other management and administration charges	0.03%
Total Performance-based fees[5 6 7 8]	**0.00%**

Other charges	**Dollar amount per investor**
Member Fee	$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Booster SuperScheme: Workplace Savings Funds PDS for more information about those fees.

See the product disclosure statement for more information about the basis on which performance fees are charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

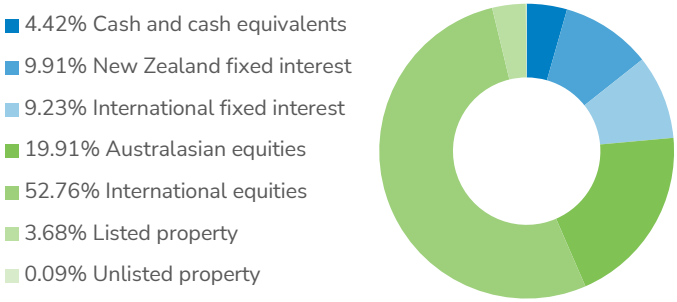

Example of how this applies to an investor

Ruby had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ruby received a return after fund charges and tax were deducted of $746 (that's 7.46% of her initial $10,000). Ruby also paid $0.00 in other charges. This gives Ruby a total return after tax of $746 for the year.

Notes

1 Because the fund has been operating for less than 5 years, the risk indicator has been calculated using market index returns for the period 1 October 2021 to 31 May 2022 and actual returns for the period of 1 June 2022 to 30 September 2026. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2 Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). GST is not included in any of the fees stated and will be added where required.

3 The management fee covers Booster's administration and investment management fees, the Supervisor's fee and the regular costs and expenses of running the Scheme (such as audit fees and legal fees).

4 Because the manager of Booster Tahi LP is a related party to Booster SuperScheme, and it may receive a performance fee based on the returns of the Booster Tahi LP; 0.50% of Booster Investment Management Limited's annual management fee is rebated on the amount invested by the Fund in Booster Tahi LP.

5 The Fund may invest a portion of its net asset value in Booster Innovation Fund, which is managed and established by Booster Investment Management Limited. Booster Innovation Fund pays a performance fee to Booster Investment Management Limited. By investing in Booster Innovation Fund, the Fund will bear a proportionate share of any performance fee charged which will be reflected in the unit price of the Fund.

6 The Fund may invest a portion of its net asset value in Booster Tahi LP, a limited partnership managed and established by related parties to Booster Investment Management Limited. Booster Tahi LP pays performance fees to the fund manager, Booster Funds Management Limited. By investing in Booster Tahi LP, the Fund will bear a proportionate share of any performance fee charged which will be reflected in the unit price of the Fund.

7 No performance-based fee was charged for the Booster Tahi LP or the Booster Innovation Fund for the year ended 31 March 2026. The performance fee will vary based on the performance of the Booster Tahi LP or the Booster Innovation Fund and this charge for the year ending 31 March 2026 may be materially different to the fee charged for the year ended 31 March 2027.

8 For more information on the performance-based fee, refer to the Fund's PDS and to the "Estimate of Fee" document lodged on the offer register at https://disclose-register.companiesoffice.govt.nz for more information on the performance-based fee.
